# A Taling Chan

Come and visit the Taling Chan Floating Market here in Bangkok, The visit lasts a few hours and is available only at the weekend.

Meet your tour guide at 11 a.m. and go by bus to the floating market. Walk round and hear about the history of the area. See the boats, full of fresh fruit and vegetables, and then stop to eat. For lunch, you can try traditional Thai dishes like pad thai (noodles) and tom yum goong (a spicy soup with a hot, strong taste). Then, get on a boat and travel back through the market for the return journey. Don't forget your camera!

Prices start from £20 per person and include a full meal (lunch).

Contact the office to buy your ticket.

#### B Hi Sam!

How are you? I'm still in Finland.

Today we're at Kauppatori Market —it's right next to the sea! It's one of the best places in the world to eat fresh fish. The cooks all use local ingredients, of course. The market's got around thirty food stalls and some have got covered areas where you can sit. We can watch the boats from our table! I've got grilled salmon with potatoes and it's really delicious (better than fast food!). Later, I want to buy some fruit from the food market - I hope they speak English!

#### Love, Anna

#### C La Merced

What: La Merced is a huge market in Mexico City and the main focus is food. You can also buy other goods, such as shoes or kitchen equipment. This is not a place to visit in a hurry — the market is inside a huge building and it's easy to get lost. There are plenty of places to eat street food inside. It's cheap and popular with local people as well as tourists.

<u>Don't miss:</u> Try specialities like mole (a sauce) and *quesadillas* (a type of thin bread filled with cheese).

You can get vegetarian or meat quesadillas.

How to get there: It's a short walk from the main tourist area or take the metro to Merced (line 1).

When: Open daily 5 a.m. — 7 p.m.

6 5 №5. Read the texts again. Match questions 1-7 to places A-C. There is one extra question (tick x).

questions	places

GREEN CITY

The problem of polluted cities is very actual nowdays. Unfortunately, my city isn't exception. If we want to live in better place, we should do some things. Let me tell about ways of solving this problem

First of all, we should start recycling scheme. There are thousands kilogramms of used plastic, paper and other garbige. It takes lots of space to save it. But if we recycle all that staff, we will get now materials to create new things and save we will get now materials to create new things and save non-renewable resources. Seconly, we need to establish non-renewable resources. Seconly, we need to establish more parks. Threse Park is a place, where plants and trees more parks. Threse Park is a place, where plants and trees are. So we should to plant trees too. In this way we will make the air cleaner.

To sum up, if we want to make our city a better place to live in, we should change ourselfs and work together.

At the end, we'll find the best solution of problem together.
