Задание №5. Writing

Hey, Ben!

I'm glad to see your letter. It's been so long since I last heard from you - more years you pass, more difficult classes becoming, and I understand it and hope you're going to pass it successfully!

Talking about school, I'd love to help! You had really helped me out for my project.

Well, most of Russian teenagers in their free time are going out with friends, playing computer games or doing their homework, because sometimes teachers can all give us a LOT of homework for the one day or give us, like, five tests at once. Also girls're really love go shopping and watching romantic serials.

What about me? My hobbies're kinda different from everybody else. I don't like romantic serials nor going shopping, and I'm not going out with my friends much, because after school I don't have much free time - I'm going to the classes to prepare for the exams. When I'm back home always do my whole homework. And only then I have my free time.

To be honest, I don't do much in my free time. I really like to play computer games - they are like my runaway from the reality, - or watching english Twitch streamers - it's an easy way for me to learn English (I think I know it kinda good for my age now - when I'm listening to the English videos in the background but I'm doing something else, I automaticly can translate everything in

my head and it really sounds like Russian to me!). Sometimes I also play the piano - it's relaxing and i like to play my favourite songs.

About entertainment, I prefer, like I said before, computer games, but if you're saing about outside, I like cinemas and even theaters, mostly operas like Karmen.

Oh, I should go, I just remembered about my essay I need to send to 8 PM, and I haven't even started! Sorry for it. But if you need more help, just write me! I'm always ready to help.

Best wishes,

Sonya
