WRITING V2:

I have attended the courses when I was in Arttek International Children's Centre this autumn. ~~We~~ We were offered a lot of different courses such as volleyball working at the post office, cooking, etc. I chose photography course because I love taking photos. During the course, we learned how to use camera correctly and how to work with light when you take photos. Sometimes it was difficult to memorise some tricks and the buttons which need to be pressed to do something with the camera. Nevertheless, I really liked it. Our teacher was understanding and explained the material very well. The best part of the course was how to set up ~~the~~ the light when you take a photo. After learning a new topic, we passed a test on Kahoot! I attended the course only 3 hours a week so there was a lot of practise, which I also liked, because we could take a lot of lovely photos. I also liked the guys I learned with. They were very interesting and they joked a lot. I would recommend this course to other people because the teacher was very cool and group is formed specifically for you. After this course you will be able to work with professional camera like Canon or Sony cameras and to set up softboxes and other light.
