TASK 5 Topic 2: The importance of Sport.

It is out of the question, that sport plays an important role in many people's lives, especially teenagers. Doing sports regularly has many health benefits, as well as psychological. Personally, I regularly go to the gym and play tennis with my friends.

Different sports give different benefits, but all of them improve your overall health and help you lead a happy and balanced life. Team sports can give you a sense of belonging, help you make friends with new and interesting people and improve your communication skills. Young people tend to stay indoors nowadays, so outdoor sports are especially important for them. Getting fresh air can decrease their chances of getting lung diseases and strengthen their immune system.
