"Avengers: Endgame" which was filmed by Joe Russo is an awesome ending of ~~the~~ story which lasted for 11 years. It gathers all the best from the previous parts and increases the level of graphics, which is a masterpiece.

The thought is not repeated

First of all, I would like to focus on the relationships between Scarlett Johansson and Mark Russo which made lot of fans feel sad. Also, the cast is chosen perfectly with no doubt. ~~They~~ ~~It~~ The actors were so emotional as if the film was reality.

The plot is about Avengers who want to get all the vanished people back. However, during time travel they get chased by Thanos. After Hulk snaps Thanos appears and the final battle starts. Avengers are about to be defeated when another heroes arrive from portals and start helping main heroes: Iron man, Thor and Captain America win. ~~As~~ ~~At~~ the end, Tony Stark sacrifices himself to defeat Thanos.

"Avengers: Endgame" is the best film I have ever watched. A lot of people worked on this project to make this movie the best. The graphics and plot are incomparably the best. I would definitely recommend this film for those who loves blockbusters.

- lack of the background information and the description of the characters;
- lack of diversity of literary means of expression
